CAUVERY RESERVOIR WORKS.

Notice is hereby given that sealed tenders will be received by the undersigned up to 5 P.M., on 15th September 1916, for the supply of the undermentioned articles, required for the use of the North and South Banks of the Cauvery Reservoir Works, from 1st October 1916 to 31st October 1917.

2. The quantities required approximately are :—

400 tons to North Bank and 200 tons to South Bank.

3. Tenders should be submitted on the printed forms which may be obtained from the undersigned's office and accompanied by a list in the form given below, showing the rate at which the items specified will be supplied.

4. Each tender must be accompanied by a deposit of Rs. 400 in currency notes, as earnest money, and be superscribed "Tenders for the supply of coal" and in default of which tenders will be rejected. The earnest money of the unsuccessful tenderers will be refunded

5. The final acceptance of any tender will rest with the Chief Engineer, who does not bind himself to accept the lowest or any tender or assign any reason whatever, for the rejection of any tender.

6. The name of the successful competitor, whose tender has been accepted, will be posted on the notice board in the undersigned's office, and intimated to him in the usual course. No enquiries regarding the acceptance or rejection of a tender will receive attention.

7. The rate tendered for the item shall include costs of delivery free on rails at French Rocks or Paschimavahini Railway Stations, Madras and Southern Mahratta Railway.

8. Orders will be placed with the successful tenderer as the articles are required and the supply of the order in full must be completed within three weeks from the date on which such an order is placed, failing which, the unexecuted portion of the order will be cancelled, and orders placed elsewhere and the earnest money deposited by the successful competitor forfeited as a penalty for the non-execution of the order in full.

9. The kind of coal should be specified in quoting rates.

10. The coal should contain no dust and other non-combustible material.
